

Fair Electoral Representation: Petition to the Government of Canada

A petition to ensure Canadians have a fair electoral system

Whereas:

- Our winner-take-all voting system results in a House of Commons where the number of MPs a party's supporters elect does not reflect the number of voters who cast ballots for that party.
- Fair voting systems better reflect the will of voters, let them vote for the candidate or party they prefer, and give each community fair and accountable representation.

We, the undersigned residents of Canada and supporters of electoral reform, call upon the Government of Canada to:

- immediately re-commit to its 2015 campaign promise to ensure that 2015 would be the last Federal election held under the First Past The Post electoral system.
- Introduce an electoral reform bill to the House of Commons based on the recommendations of the ERRE committee to introduce an electoral system based on proportional representation in a time frame which ensures Royal Consent by October 2017.
